

KOSMIC KOLOR® URETHANES

KOSMIC KOLOR® URETHANE KANDY'S (UK SERIES)

'The True Kandy effect - often imitated but never duplicated'

Watch this color explode off the panel taking your project to a dramatic new level. Being Translucent enables limitless color possibilities - magnifying any base coat or flake that it is placed over. Our Cosmic Kolor Kandy is incomparable to any other Kandy on the market - no one can match our color intensity, durability, longevity, and ease of application!

KANDY KONCENTRATES

KANDY KONCENTRATES (KK SERIES)

'For those that just can't get enough color'

This specially designed product is for intensifying or changing a color. Or making a low solid kandy using SG100. For multiple artwork layouts or airbrush projects also. Strengthen Kandy's for faster coverage on chassis, undercarriage, door jambs, engine bays, etc. A great all around product to achieve that one of a kind look.

ARTISTIC BASES

KOSMIC KROME® (MC SERIES)

'Hard hitting metal look'

The Cosmic Krome effect has evolved from the development of revolutionary aluminum flake chemistry. The final result can be a beautiful and interesting finish that when combined with other HOK products transforms into an entirely different realm. Brushed aluminum effect can be applied to create a real metal finish - even on wood or plastic! Ideal for detailing of interior parts and available in 5 metal color effects.

MARBLIZER® (MB SERIES)

'Creating out of this world finish with ease'

Marblizer® Artistic Bases offer you an exciting new paint finish - adding incredible new visual depths to your project. This unique coating can create a wide range of effects - from a deep marble grain to snakeskin appearance. Available in 6 versatile colors - however can be over coated with Kandy's to create any color you wish with an intensely powerful effect. Use MB00 Neutral Marblizer® to create your own Marblizer effect by adding any of our dry pearls including Kameleon®.

COAST to COAST COMPLIANT

HOUSE of KOLOR
SHIMRIN2
PREMIUM KUSTOM FINISHES
SINCE 1956

SHIMRIN® UNIVERSAL BASE

SOLID GRAPHIC KOLORS (SG SERIES)

'The cleanest most radiant colors available!'

Made using the brightest, cleanest organic pigments available. Used for overall paint jobs or as a base for Pearls, Flakes etc. May be blended for varied hues. Also great for artwork and airbrush.

DESIGNER PEARLS (PBC SERIES)

'Crisp clean pearls from any angle'

Designer Pearls come in the widest palette on the market - over 40 pearl colors in the range. Color possibilities become endless, as Designer Pearls may be intermixed, and can also be blended with other Shimrins, such as KBC, BC, FBC and NE for added creativity. Dry Pearls can further increase the palette. As with all Shimrins products the low film build makes this an excellent choice for complete paint jobs, artwork and airbrush jobs.

GLAMOUR (BC SERIES) & FINE METALLIC (FBC SERIES)

'Versatile platform product that creates a world of endless color'

12 beautiful metallics in coarse (BC) and fine (FBC) out standing as the final color or as a base for our kandys (See color card and view each kandy over all 12 bases) BC and FBC can be intermixed for that one off kustom job. Also compatible with Neons, Designer Pearls or any dry Pearls, including Ice Pearls II. The kolor wheel is huge, creativity is in your hands.

KANDY BASECOATS (KBC SERIES)

'Outstanding color at every stage of your project!'

This is a specially developed basecoat that mimics the ever popular Kandy finish. Easy to use with a low film build, makes this basecoat suitable for street machines of all kinds, especially being touch up friendly. Mixes beautifully with the PBC's offering many exciting combinations. Easiest kandy to spray bar none!

METAJULS® METALLIC BASES (MBC SERIES)

'Exceptional sparkle & brightness'

Shimrin Metajuls® Metallic Bases are our most brilliant metallic basecoats that feature exceptional sparkle & brightness. You haven't seen sparkle until you get your hands on Metajuls® Metallics! Used alone they are spectacular, but when teamed with Kandys - they really become magic!

KAMELEON® KOLORS (KF SERIES)

'Revolutionary head-turner'

Kameleon® Kolor is a revolutionary base coat that has advanced the world of color. Kameleon® will actually change color depending on what angle it is viewed. Rounded, curved surfaces & sharp angles will be highlighted by this unique formulation.

NEONS (NE SERIES)

'Eye-grabbing graphic impact'

Shimrin® Neons are designed for hard-hitting high visual impact. Perfect for highlights on race cars, boats and signage where eye-catching intensity is craved. Use with caution, will fade with long term exposure to light.

STRIPING & LETTERING ENAMEL (U SERIES)

'For a truly unique custom job'

Designed for striping, lettering & airbrush artwork. The high pigment concentration means you can complete most strokes with one pass - single application! Low film build for minimal edging. Designed to be clear coated. A catalyst is available if you do not wish to clear coat. Available in 36 accent colors to highlight your project.

KUSTOM CATALYST, REDUCERS & THINNERS

CATALYSTS (KU152 & KU100), EXEMPT CATALYST (KU150) & EXEMPT FLOW CATALYST (KU151)

House of Kolor offers a full line of top quality catalysts designed to work with-in our product line. Highest reactivity for high build coatings.

REDUCERS (RU310 - RU313, RU300 LV Cool Weather, RU301 LV Warm Weather)

Our Cosmic Reducers - RU310 Fast Dry, RU311 Medium Dry, RU312 Slow Dry, RU313 Very Slow Dry, RU300 LV Cool Weather, and RU301 LV Warm Weather Reducers, are made with high grade ingredients specific to the House of Kolor system. Use no other!

RETARDER (RU315)

Designed for the Kosmic Kolor® Urethane system to retard dry time in situations where this is deemed necessary, such as force drying.

SPECIALTY PRODUCTS

NEW RELEASE - KOSMIC KICKER (AX02)

AX02 Cosmic Kicker is an accelerator for all House of Kolor Urethane products. AX02 can be used to reduce dry times on small parts that need to be handled sooner to increase production. A good example of this products usefulness would be for a motorcycle project where the coats of Kandy and Klear could be accelerated for quicker sanding and addition of artwork later that day. AX02 is not a cure all for a cold shop and should not be used on larger projects such as a complete car.

KRATOR ELIMINATOR (KE170)

At Last a fisheye eliminator that does not need to be used in every coat. Use KE170 to correct fisheye or crater defects. Works with Lacquer, urethane, polyurethane, acrylic urethane, acrylic enamel, etc. A must have for your paint shop. Do individual testing on other company's products. May not correct major silicone contamination. In that case, use a silicone oil which will be required throughout the job.

ADHERETO® (AP01)

AP01 is designed to use when top coating ABS, TPO (Thermoplastic Polypropylene), Polypropylene/ elastomer blends, other plastics, aluminum, steel, brass and other metals.

HI-HEAT BLACK (HH04)

Hi-Heat Black is a fast-covering, great-looking, semi-gloss jet black finish that will endure 1400° F without flaking or discoloration.

FLATTENING AGENT (FA01)

Flattening Agent reduces the gloss of our urethane and acrylic urethane enamel topcoats and Klears. For chassis and under carriage parts and especially for flattening any topcoat for the rat rod look so popular today!

SHIMRIN2® SYSTEM

Shimrin2® is the 2nd generation of the proven Shimrin® Basecoat technology introduced in 1982. Shimrin2® is the next generation of robust ground-breaking universal basecoats from House of Kolor. Through new polymers and innovative chemistry we are able to meet and exceed waterborne with a solvent based system and allow you the painter to create hundreds of easy to mix and use colors that are the most exciting, from the latest pearl technology. Shimrin2® basecoats are ultra productive, easy to apply, and range from Metallic Basecoats (BC), Pearl Basecoats (PBC), and Kandy Basecoats (KBC). Shimrin2® Basecoats are a three component system that consists of our S2 FX Karrier Bases, S2-FX Effect Pacs and RU Series Kosmic reducers. This New System is the Future of kustom painting available now, compliant through out the USA including California. Shimrin2® is supported by our Online Kwik-Mix Formula Retrieval System. Visit www.houseofkolor.com for details.

Online Kwik-Mix

SOLID BASECOAT

House of Kolor has stepped up its game with the introduction of the Shimrin2® S2-25 and S2-26 Solid Basecoats. With a blacker Jet Black and whiter Bright White, The Best just got Better. Color outside the lines, add FX Effect pacs for that extra bling!

S2-25 Jet Black
S2-26 Bright White

FX KARRIER BASE

S2-00 Trans Nebulae is the beginning of all Shimrin2® effects, making it the heart of the Shimrin2® product system. This diverse component of the S2 FX Karrier Base Series is used to create straight effects with no pigment, KBC Kandy Basecoats, tri-stage coats, and much more. Color styling is a breeze with S2 FX Karrier Bases S2-01 through S2-16. From classic favorites like Galaxy Gray, Solar Gold, and Planet Green to new trend setting colors like Eclipse Orange, Solar Flare Red, Lunar Yellow, and Mayan Magenta. These new FX Karrier Bases will have your jaws dropping with extreme clarity, Kandy-like micro grind of pigments, and full spectrum of color attributed to advanced manufacturing techniques, innovative chemistry, and robust polymer engineering.

S2-FX38	Kosmatic Styling Pearl - KSP Indigo FX
S2-FX39	Kosmatic Styling Pearl - KSP White FX

FX METAJULS®

House of Kolor proudly introduces the next generation of our highly popular Metajuls® MBC Series in the Shimrin2® system. Shimrin2® FX Metajuls® Series feature more colors than ever in an easy to use system. If you want a metal flake look without the intense labor normally associated with flakes, the FX Metajuls® will blow your mind!

S2-FX41	Metajuls - MBC Prism FX
S2-FX42	Metajuls - MBC Pale Gold FX
S2-FX43	Metajuls - MBC Red FX
S2-FX44	Metajuls - MBC Blue FX
S2-FX45	Metajuls - MBC Yellow FX
S2-FX46	Metajuls - MBC Green FX
S2-FX47	Metajuls - MBC Silver FX

FX KAMELEON®

House of Kolor changed the face of the kustom paint industry with our revolutionary Kameleon® colors and pearls. We've done it again with the new Shimrin2® FX Kameleon® Series. Do you want colors that change as you move around your vehicle? Amazing effects are yours with an increased palette of colors. You set the tone with Shimrin2® FX Kameleons, whether you want subtle or dynamic color shifts.

S2-FX51	Kameleon - KPF Green to Blue FX
S2-FX52	Kameleon - KPF Gold to Green FX
S2-FX53	Kameleon - KPF Copper Red to Green FX
S2-FX54	Kameleon - KPF Sapphire FX
S2-FX55	Kameleon - KPF Aquarius FX
S2-FX56	Kameleon - KPF Mayan Eruption FX

FX KOSMIC SPARKS®

Prepare to be floored by our new Shimrin2® FX Kosmic Spark® Series. These pearls are by far the most brilliant pearls viewed in the Sun ever developed. Kosmic Sparks offer you the whitest White pearl possible, and a spectrum of colors to expand your palette. FX Kosmic Sparks are the same platelet size as other pearls, but twice as brilliant!

S2-FX61	Kosmic Sparks - KDP Sno White FX
S2-FX62	Kosmic Sparks - KDP Gold Rush FX
S2-FX63	Kosmic Sparks - KDP Blushing Red FX
S2-FX64	Kosmic Sparks - KDP Copper Penny FX
S2-FX65	Kosmic Sparks - KDP Summertime Green FX
S2-FX66	Kosmic Sparks - KDP Ocean Blue FX
S2-FX67	Kosmic Sparks - KDP Turquoise FX

PREPARATION & CLEANING

WAX & GREASE REMOVER (KC10)

- Removes grease, wax, silicone, adhesives, tar, tree sap, insects and dirt.
- Quick flashing solvent designed for use over existing finishes and bare metal before sanding and body work.

POST SANDING CLEANER (KC20)

- Removes sanding residue as well as dirt and light contaminants.
- Eliminates static electricity that occurs during the working of substrates.
- Designed for use after KC10 and after sanding.
- Excellent for cleanup on basecoats without damaging the base.

KUSTOM PRIMERS & SEALERS

NEW RELEASE - KUSTOM DTS FOUNDATION SURFACER/SEALERS (KD3000)

The foundation put under anything, a house, a sky scraper or a paint job is incredibly important. KD3000 Series Kustom DTS (Direct to Substrate) Foundation Surfacers/Sealers is a tri purpose product that can be used as a high or medium build primer surfacer, or as a sealer. It is formulated with a hybrid of epoxy and acrylic polymers, which provide excellent adhesion and corrosion resistance, productive dry times, and ease of sanding. These DTS surfacer/sealers emit very low amounts of Volatile Organic Compounds (VOCs), Hazardous Air Polluting Solvents (HAPS), and contain no isocyanates. The KD3000 Series DTS surfacer/sealers may be applied to the existing OEM finish, bare steel, aluminum, fiberglass, galvanized surfaces, and various plastics. Its tenacious adhesion, hi-build, excellent durability, and water and corrosion resistance and ease of sanding makes it a superior choice for the basis of a long lasting custom paint job. KD3000 Series is supported by our Online Kwik-Mix Formula Retrieval System. Visit www.houseofkolor.com for details.

NEW RELEASE - SILVER SEALER (SS01)

SS01 House of Kolor Silver Sealer is the only silver sealer in the automotive paint business. Considered a must under all metallic based colors for easy to spray even coverage of metallic basecoats. Fewer topcoats will be necessary for additional savings. Built from a Polyurethane resin system to provide tenacious adhesion and long term color hold out. Engineered to work over House of Kolor's new KD3000 Direct to Substrate colored primer system, KP, KS, KD systems, and OEM finishes. SS01 can also be custom tinted with up to 10% of Kandy Koncentrate for an even closer color match under Shimrin2® and original Shimrin® basecoats and Kandy basecoats.

ADDITIONAL KUSTOM PRIMERS & SEALERS

KWIKURE 2-PART EPOXY PRIMER/SURFACER (KP2CF- PARTS A & B)

KO-SEAL® II PRIMER SEALER (KS SERIES)

KOSMIC CLEARS

NEW RELEASE - KOSMIC URETHANE SHOW KLEAR (USC01)

Simply stated, USC01 Kosmic Urethane Show Klear is the most robust klear House of Kolor has ever produced. Using state of the art polymer technology, we have developed a clear with excellent chemical, fuel, and water resistance, as well as the highest UV protection in the industry. USC01 also offers users excellent flow out, gloss and D.O.I. (Distinctness Of Image) after 48 hours. This klear is identified as a medium solids product (41%). It can be used on all size vehicles from large trucks to compact cars, resulting in the show-ready finish that House of Kolor users crave. We have also created the new AX02 Kosmic Kicker accelerator for use on motorcycles and small parts, resulting in higher production in your shop. USC01 Kosmic Urethane Show Klear is the ideal clear coat for you and your pursuit of excellence. USC01 Kosmic Show Klear meets all VOC rules and regulations, Coast to Coast, including California.

ADDITIONAL KOSMIC CLEARS

KOSMIC ACRYLIC URETHANE KLEAR (UC35)

KOSMIC POLYURETHANE FLO-KLEAR (UFC35)

INTERCOATS

NEW RELEASE - INTERCOAT (S2-SG100)

S2-SG100 Intercoat is an important tool for the custom painter. It is designed to be applied over a given base color, prior to taped art work or air brush art. This allows for easy removal of mis-tapes or air brush errors without damage to base color. We recommend KC20 as the only clean up solvent. The intercoat is also applied over art work to preserve blending and fogging of various colors before applying kandy or clear topcoats. S2-SG100 is a safety layer, allowing you to pause and continue your project later. S2-SG100 is not a build up clear or a top coat clear. Limit applied coats to 4, however, if used as a carrier for base coat kandy. When used as a carrier for pearls or flakes when reduction from standard 2:1 goes to 1:1, more coats are acceptable. S2-SG100 is also used to reduce strength of base coats for blending colors or for checking touch ups before top coat clears are applied. Considered a must over Marblizer® before kandy or clear to guarantee adhesion. S2-SG100 Intercoat, as you can see, is an important workhorse for the painter! S2-SG100 is coast to coast VOC compliant, including California.

ADDITIONAL INTERCOATS

INTERCOAT CLEAR (SG100)

INTERCOAT BARRIER CLEAR (USG100)

INTERCOAT PEARL & FLAKE KARRIER (SG150)

NEW RELEASE - URETHANE KANDY KARRIER (UKK01)

UKK01 Urethane Kandy Karrier takes House of Kolor into the 21st century with state of the art polymer technology to produce a product that remains a solvent base system and meets the VOC's requirements coast to coast (including California). UKK01 can be applied as a medium solids Kandy (34% solids) or as a low solids Kandy (29% solids). Simply reduce and Catalyze the UKK01 and then add 2-4 ounces of any of House of Kolor's KK Kandy Koncentrates to a ready to spray quart of UKK01 Urethane Kandy Karrier to produce the same vibrant Kandy Kolors as our current UK Kandy's.

DRY PEARLS & FLAKES

PEARL CONCENTRATES (DR & DP SERIES)

'The perfect tools for one-off Kustom Kolor Creations'

Our specially developed Pearl concentrates are available in dry form. Add to any of HOK acrylic lacquers or urethane enamels, Intercoat Clear, Intercoat Pearl or Flake Karrier to morph your project into a truly unique creation.

KOSMIC PEARL (KDP SERIES)

Kosmic Pearls are our newest pearl line that features increased reflectivity, brightness and sparkle. Kosmic Pearls feature high intensity making them a great choice to use over light or dark bases. Try adding Kosmic Pearl in dry form to your base color or clear finish for a dramatic effect.

ICE PEARL II (IPII SERIES)

Ice Pearls II surpass all traditional pearls for brightness of color, transparency and reflectivity. Ice Pearl II may be used in conjunction with any of our Shimrin Universal bases, Kandys, Klears, Marblizers or Kustom Bases. Available dry.

KOSMIC LONG-GLO (KLG SERIES)

'Fun with the lights off'

Kosmic Long-Glo is a glow in the dark powder additive that can be mixed into any base or Klear. Kosmic Long-Glo is fantastic for use in airbrushing & detailing – to add another dimension to your project at night. Available dry.

FLAKES (F, MF & UMF SERIES)

'A galaxy of sparkle to inspire you'

Unlike the majority of flakes on the market that claim to be easy to spray – ours really are! Ultra thin polyester makes HOK Flakes the lightest and easy to use.
