To all House of Kolor Customers,

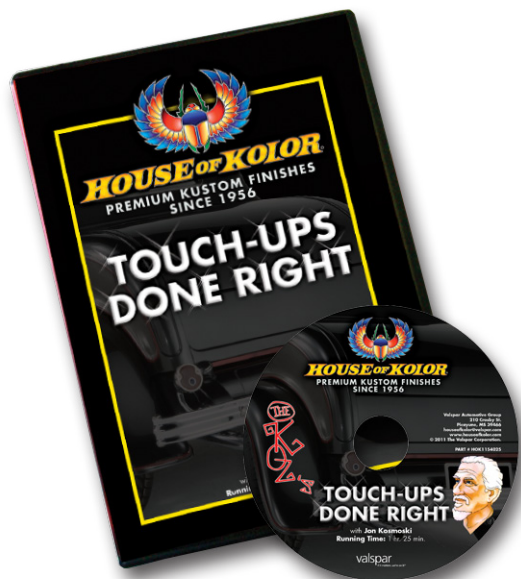

RE: NEW RELEASE - HOK1154025 - TOUCH-UPS DONE RIGHT DVD

It happens to the best paint jobs. Rock chips, road salt, and countless other road hazards leave unsightly areas that require touch up.

House of Kolor's founding father and Hall of Famer Jon Kosmoski guides you through the process of touching up your custom paint job and creating the perfect, invisible blend. Jon teaches you how to touch up solid bases, metallic tri-stage basecoats, Kameleon® finish, pearlescents, and even Kandy Apple Red.

From spray gun selection and sanding to blending and clearcoat, Jon shows how you can make the sometimes difficult task of touch-ups much easier.

Master these touch up techniques and keep your custom creations looking their best.
